

Dear Senators and Congressperson:

Current federal budget priorities do not meet the needs of the people of Missouri! The debate in Congress is foolish and misguided!

Government budget cutting is creating more unemployment, providing less help for people who have lost their jobs and is making the economic recession worse.

It is time for you, my elected official, to stop catering to the interest of the big corporations and the super rich.

For the wellbeing of your constituents our federal budget priorities must change to meet our needs and hopes for the future.

These are my priorities. Increase funding for:

- Jobs
- Education
- Healthcare
- Housing & Neighborhoods

Cut money for:

- War And The Military
- Corporate Welfare
- Tax Cuts For The Super Rich

Signed: _____
